

In re of Appln. No. 09/830,357

Amendments to the Claims:

This listing of the claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-60 (Cancelled)

61 (Currently Amended). A composition of matter that is semi-solid or solid at room temperature and/or when refrigerated by household means, consisting essentially of a edible liquid oil that is liquid within the entire range of 4-25°C and a sufficient amount of beeswax such that the composition of matter is semi-solid or solid at room temperature and/or when refrigerated by household means, the amount of said oil being mixture of at least about 50% or more by weight of at least one liquid oil and the amount of said beeswax being less than 50% by weight or less of beeswax, wherein said at least one liquid oil is a liquid in at least one portion of the temperature range of 4-25°C.

62 (Previously Presented). A composition of matter according to claim 61, wherein said at least one liquid oil contains omega-3 polyunsaturated fatty acids ($\Omega-3$ PUFA).

63 (Previously Presented). A composition of matter according to Claim 62, wherein said at least one liquid oil in the solidifying mixture contains from about 20% to about 90% by weight of omega-3 polyunsaturated fatty acids.

64 (Previously Presented). A composition of matter according to Claim 63, wherein said at least one liquid oil containing 20-90% by weight of omega-3 polyunsaturated fatty acids is fish oil.

In re of Appln. No. 09/830,357

65 (Previously Presented). A composition of matter according to Claim 64, wherein said fish oil contains above 50% by weight of omega-3 polyunsaturated fatty acids.

I
66 (Previously Presented). A composition of matter according to claim 61, wherein said at least one liquid oil is a vegetable oil.
Cmt

67 (Previously Presented). A composition of matter according to claim 66, wherein said at least one vegetable oil is selected from soybean oil and olive oil.

68-70 (Cancelled)

71 (Currently Amended). A composition of matter according to claim 64, comprising from about 50% to about 80.83% of by weight of fish oil.

72 (Previously Presented). A composition of matter according to claim 64, comprising about 80% by weight of fish oil.

73 (Previously Presented). A composition of matter according to claim 72, wherein the amount of omega-3 polyunsaturated fatty acids in said fish oil is such that said composition comprises about 60% by weight of omega-3 polyunsaturated fatty acids.

74 (Cancelled)

75 (Previously Presented). A composition of matter according to claim 67, wherein said vegetable oil is soybean oil.

76 (Previously Presented). A composition of matter according to claim 67, wherein said vegetable oil is olive oil.

In re of Appln. No. 09/830,357

77 (Previously Presented). A composition of matter according to claim 61, wherein the composition has a homogeneous consistency.

*E |
Cont*
78 (Previously Presented). A composition of matter according to claim 77, in the form of a homogeneous semi-solid spreading paste.

79 (Previously Presented). A composition of matter according to claim 61, further comprising at least one additional ingredient.

80 (Previously Presented). A composition of matter according to claim 79, wherein said at least one additional ingredient is at least one flavoring agent.

81 (Previously Presented). A composition of matter according to claim 80, wherein said at least one flavoring agent is smoked salmon flavor or parmesan cheese flavor.

82 (Previously Presented). A composition of matter according to claim 79, wherein said at least one additional ingredient is at least one odorant.

83 (Previously Presented). A composition of matter according to claim 82, wherein said at least one odorant is garlic scent or oregano scent.

84 (Currently Amended). A homogenous semi-solid paste for spreading consisting essentially of at least about 50% by weight of fish oil and about 50% or less of beeswax.

85 (Previously Presented). A homogenous semi-solid paste for spreading according to Claim 84 consisting essentially of at least about 80% by weight of fish oil.

In re of Appln. No. 09/830,357

86 (Previously Presented). A homogenous semi-solid paste for spreading according to Claim 85 wherein the amount of omega-3 polyunsaturated fatty acids in said fish oil is such that said composition comprises about 60% by weight of omega-3 polyunsaturated acids.

87 (Previously Presented). A homogenous semi-solid paste for spreading according to Claim 85, further comprising at least one additional ingredient. 7

88 (Previously Presented). A homogenous semi-solid paste for spreading according to Claim 87, wherein said at least one additional ingredient is selected from at least one odorant and at least one flavoring agent.

89 (Previously Presented). A method for the preparation of a composition of matter according to claim 61, the method comprising:

(a) heating a mixture of said at least one liquid oil and said beeswax to a temperature above the melting point of said beeswax, under conditions such that homogeneous consistency is obtained; and

(b) gradually cooling said mixture to room temperature, thus obtaining a homogeneous semi-solid paste that can be stored at room temperature and/or by household refrigerating.

90 (Currently Amended). A method according to claim 89 for the preparation of homogeneous semi-solid paste suitable for spreading consisting essentially of from at least about 50% to about 80% by weight of fish oil, and beeswax, said method comprising:

In re of Appln. No. 09/830,357

(a) mixing fish oil with beeswax at 80°C under stirring until a homogeneous consistency is obtained; and

(b) cooling said mixture to room temperature, thus obtaining a homogeneous semi-solid paste containing from at least about 50% to about 80% by weight of fish oil, that can be stored at room temperature and/or by household refrigeration.

91 (Currently Amended). A method according to claim 90, for the preparation of homogeneous semi-solid paste suitable for spreading consisting essentially of about 83% by weight of fish oil, said method comprising:

(a) mixing 400 g fish oil with 80 g beeswax at 80°C under stirring until a homogeneous consistency is obtained; and

(b) cooling said mixture to room temperature, thus obtaining a homogeneous semi-solid paste containing about 83% by weight of fish oil that can be stored at room temperature and/or by household refrigeration.

92 (Currently Amended). A homogeneous semi-solid paste suitable for spreading comprising from about at least 50% by weight of fish oil and from about 2017% to about 50% of beeswax, said homogeneous semi-solid paste being formed by a method comprising:

(a) mixing fish oil with beeswax at 80°C under stirring until a homogeneous consistency is obtained; and

(b) cooling said mixture to room temperature, thus obtaining said homogeneous semi-solid paste suitable for spreading.

In re of Appln. No. 09/830,357

93-96 (Cancelled)

97 (Previously Presented). A nutritional supplement comprising a composition according to claim 61.

98 (Previously Presented). A food additive comprising a composition according to claim 61.

99 (Previously Presented). A food additive according to claim 98 wherein said composition is a omega-3 polyunsaturated fatty acid enriched composition.

100 (Previously Presented). A food additive according to claim 99 wherein said composition comprises omega-3 polyunsaturated fatty acid enriched fish oil.

101 (Cancelled)

102 (Previously Presented). A composition of matter according to Claim 65, wherein said fish oil contains about 80% by weight of omega-3 polyunsaturated fatty acids.
